

***The Fifteenth Annual IEEE Green Technology (GreenTech) Conference
April 19 – 21, 2023 | Denver, Colorado***

The 15th annual IEEE Green Technology (GreenTech) Conference offers an excellent opportunity for presenting technical papers to a gathering of international experts in green Technology promoting secure and clean energy systems for the 21st century. The conference serves as a forum for engineers, researchers, and specialists from academia, research centers, and industry worldwide to discuss and present the latest developments and applications related to the challenges of securing green and clean energy sources. The main areas of interest include renewable energy and smart grids, energy generation, transmission, distribution and storage, transportation, electrification, codes, standards, regulations and policies, and related topics, including engineering education.

With so many exciting and interesting developments in the field of Green Technologies today, GreenTech 2023 draws insights and encourages collaboration from many disciplines and backgrounds. It makes a difference in the world through the sharing of innovative ideas and is truly international, as scientists and engineers from many countries are participating in the conference. The technical program includes three full days of oral sessions, workshops, and panel sessions. The Technical Program Committee plans a stimulating and excellent technical program that includes original papers submitted by authors from over 30 countries.

Exhibitor Table/Exhibit Spaces

Exhibit spaces are available to display your business or technology. All exhibit spaces will be available during the IEEE Green Technology (GT) 2023 Conference.

- **\$2,000 Single Tabletop Sponsorship**
 - At location of choice after Platinum and Gold Sponsors.
 - 6 ft x 2.5 ft Tabletop space with AC, Wi-Fi access, and two chairs.
